

BE WATER WISE...

OUTSIDE

Up to 70% of your annual water use is outside your home. Landscaping with California Friendly® and native plants, and following these simple tips will help you save water.

**SAVE
UP TO
500**
GALLONS
PER WEEK

**Water your lawn one to two days
a week**

**SAVE
UP TO
500**
GALLONS
PER MONTH

**Check your sprinkler system for leaks,
overspray and broken sprinkler heads**

**SAVE
UP TO
100**
GALLONS
EACH TIME

**Use a broom instead of a hose to clean
driveways and sidewalks**

**SAVE
UP TO
40**
GALLONS
PER DAY

**Install a smart sprinkler controller that
adjusts watering based on weather, soil
type, amount of shade and plant type**

**SAVE
UP TO
5**
GALLONS
EACH TIME

**Water your plants in the early morning
or evening to reduce evaporation and
ineffective watering**

Project Update: Granular Activated Carbon Filtration System

In March 2021, the City of Lomita held a kickoff event commemorating the start of the project to install a new Granular Activated Carbon (GAC) filtration system at the Cypress Water Production Facility. Initial construction activities began in late February 2021.

The project continues to forge ahead with demolition, surveying, and concrete cutting now complete and excavation for new underground pipes underway. All preparations are being made to bring the project online by Summer 2022.

The City of Lomita will continue to share regular updates on **www.LomitaWater.com** regarding GAC project construction activities along with other water quality information and water system news.

The City is committed to sharing information and helping community members understand where their water comes from. Residents are encouraged to visit **www.LomitaWater.com** to find all the latest water-related information and sign up for Lomita Water News Alerts.
