

## Winter 2023 Water Tour Dates Announced!

The Granular Activated Carbon filtration project is underway at the Cypress Water Production Facility (CWPF) and is expected to come online at the beginning of 2023.

We wrapped up a successful 2022 tour season and look forward to the new year with some new tour dates. Just as before, as part of our commitment to open and transparent operations of the City's water system, a series of one-hour tours of CWPF are open to residents and business owners in the Lomita area. The tours are an opportunity to get answers to some common water questions and to discuss the City's water supply and upcoming projects and programs.

### **The Winter 2023 tour schedule is as follows:**

Tuesday, January 24 @ 3:30pm

Wednesday, February 22 @ 3:30pm

Saturday, March 18 @ 10am

**To register for a tour of CWPF, visit:  
[LomitaWater.com/Water-Tours](https://LomitaWater.com/Water-Tours)**

For more information about CWPF, the GAC project and where Lomita's water comes from, visit the "Infrastructure" menu and its subpages on our website: [LomitaWater.com](https://LomitaWater.com)

**SAVE THE DATE!**
